

SPEAKER AND CHAIRPERSON DISCLOSURE STATEMENT

It is the policy of the European Union of Medical Specialists (U.E.M.S.) to ensure balance, independence, objectivity and scientific rigor in all of its individually sponsored or jointly sponsored activities. All individuals who are in a position to control the content of an educational activity must disclose to the audience any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing educational program. This pertains to relationships with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the subject matter of presentation topic. The intent of this policy is not to prevent an individual with a potential conflict of interest from planning the program. It is merely intended to disclose relationships openly so that the listeners may form their own judgements about the activity with full knowledge of the facts. It remains for the audience to determine whether the outside interests of the faculty and program committee may reflect a possible bias in either the expedition or the conclusions presented.
